## Ache Din Aane Wale Hain

Here is some good news for Diwali. A price war is set to break out in the stock broking industry. India Infoline is all set to enter discount broking soon. They are ready for a price war too. Let us hope ICICIdirect , Karvy, Sharkhan and other biggies to follow suit. [Read the News](#)

Brokerage charged by most discount brokers now a days are already pretty low. I don't think reducing the brokerage by Rs 5-10 will make too much of difference to trader. What would REALLY make difference is if the government decided to do away with the STT. At the moment STT is the main culprit, not the brokerage.

So, now the ball lies in the court of government.

Lets hope for the best!

STT to be reduced. There is another component Transaction charges. This differs from broker to broker. I wonder why But when competition hots up it will spill over to other areas. Think esignal quality data feed and Ninja Trader platform for free

Hi ST

Thanks for the info.

Despite this news the main problem remains the same. What to buy/sell, when to buy/sell. For this only self analysis will help.

No wonder why there are more Mutual fund folios in the country as against Demat accounts.

I hope this skewness changes.
