There is a substantial risk of loss associated with trading Derivatives . Losses can and will occur. My methods will not ensure profits

Thursday, February 28, 2013

Quote

"Your focus as a trader should be on the behavioral aspect of the market. It is the actions of the crowd of market participants moving prices. It matters more that you can recognize their actions or lack of action, than the specific reason why they should be taking action. This is about understanding the greed and fear that drives financial markets, and how to control your own actions within that context".

Marc Principato
