I was not watching the market live. There were some good opportunities on hindsight analysis

Hello, Would you have allowed a 50+ points pullback from BRN + PDL? The move down was fast and so it makes sense to give room but at what point would you consider not waiting for another leg down ? thanks

If I am sitting on "undeserved profit", I just exit and pocket the profit
I will prefer to exit and look for a re entry.

Hi ST,
I was biased on the long side today because of the inauguration, so missed the whole down move. Learnt a nice lesson, even if the whole world is bullish, if chart says price is going to fall, it is going to fall.

The last short. taken at break of DO, where would you keep SL?

I will keep SL just above DO/IRL and LOD at that time.

ST Sir,

What a day ! It is not often that we get to mark three BRN on an intraday chart.
