## Trading Course

Adam Grimes has launched his FREE trading course. Week 1 videos are now live. There are three videos. It will take you nearly two hours to watch these videos. I have gone through them and they are excellent.

Adam Grimes is a well known author and his book "[The Art and Science of Technical Analysis](#)" is a best seller. The course is based on the original training material he developed for "[Waverly Advisors](#)" an investment research firm. According to Adam Grimes the course will be structured in four parts

- **The Foundation of Profitable Trading:** (3 weeks) focuses on the math behind profitable trading, and different ways to find an edge in the market.
- **The Patterns of Profitable Trading:** (5 weeks) each week focuses on a specific trading pattern with the student doing testing and analysis to verify the pattern in live market data. This is also a critical part of developing your own system and approach based on these patterns.
- **The Skills of Profitable Trading:** (6 weeks) extends the work of the previous section by drilling deeper into some patterns, looking at ways to combine tools, screen for trades, and working to understand the consequence of decisions in the marketplace.
- **Special Topics** (5 weeks): This is the section that may be expanded or, perhaps, delayed, depending on how complicated production turns out to be for the rest of the course. Currently, I plan to do a week on these topics: daytrading, system development/system-assisted discretionary trading, options I, options II, and long-term investing.

Do not miss this opportunity to go through professional training material. You can also interact with Adam Grimes through the forum. [Register here](#) to access the material. This is a life time opportunity for a Retail Trader. Please do make use of it participating actively at the forum.

Hi ST,

Thanks for the link.

Also want to know if Lance Beggs' material is good??

VD

Lance Beggs material is excellent.

Core concept of my method is from Lance.

Thank you for the post. I will try to get course modules out at the rate of about one each week (the second week is out), but the holidays may slow us down a bit! I appreciate all the support you've given me and any help in getting the word out. This material is and will always be completely free... I hope it helps some people.

Thank you!

Adam Grimes

Thanks for the visit and comment  
I can understand the effort behind it  
I hope people will make use of it

ST
