27022013

Nifty opened within previous day range and could not go above DO. Suspected some absorption there and shorted below the swing low even though PDC was very close. Went long on LOL of PDC/PDL. TP at BRN. Did not attempt any other trade as I was scared to trade around BRN (NS&NF) near expiry. There could be so many whipsaws.

No sir, i traded with 3 mins candles only, but while commenting unknowingly referred 5 min bars, my mistake, it was 10.21 candle first, later 11.00 AM candle.,

I am afraid you are mistaken. I think you are referring to smart\_trade, the moderator of Traderji forum. He is a great trader and teacher. I am not where near him.

Let me do some guess work. You are from Kerala and put up somewhere near Kunnankulam and I think you were in middle east before. Am I right ?
