## Six Blind Elephants

In a forest, there lived six elephants. These elephants were blind by birth. They heard a lot about men and were wondering what men were like. After arguing a lot, they decided to find one and determine it by direct experience.

One day a poor man stranded into the forest losing his way. The blind elephants caught him. The first elephant felt the man with its trunk and front leg. He declared “Men are flat”. One by one, the other elephants felt the man. They too agreed.

Elephants left the place, happy with their new discovery, leaving the dead man aside.

You know this man and the elephants well. Who are they?

If you want to know the answer, click [here](#) and find out.
