There is a substantial risk of loss associated with trading Derivatives . Losses can and will occur. My methods will not ensure profits

Wednesday, January 15, 2014

SECRET

This formula explains how and why successful traders make money.

- S - Small losses (you must strictly control losses)
- E - Extended Profits (you must let your profits run in order to give you big profits)
- C - Consistency (you must have a method that you apply consistently)
- R - Risk/Reward (This is VERY important:)
- E - Edge (You must have an edge and understand it clearly)
- T - Trade Plan (You must have a trade plan which translates your edge into a plan)

If you master the SECRET formula - you will become successful. If you don't then you are gambling, not trading.
