Always try to catch the first move of the day..If we are attempting only good setups like BOF, BPB at major trader decisions points we will never lose much . Even if the trade is not working we will be able to get out at breakeven or a small profit.example trade 2 and 3 Always be aware of the FTA. For trade 1 there is a very high probability that the move may stall at PDC which is also a Gap closure area.FTA is the location where you may encounter an opposing order flow. FTA is the first target of the trade..

Think Location, Location. Location
