20022013

Lackluster day. Nifty opened above PDC-PDH. I was looking to go long. Did not get a good opportunity. Tried a long when four attempts to go below the MSP failed. Later scratched this trade . Nifty was forming a classic [Barbed Wire](#) around PDH-PDC with DO and MSP as extremes

Hello ST Sir

I have been following you from couple of weeks. First of all, I like everything about your blog from website looks to your write-ups and your trading strategy...everything is so simple but very effective.

To be honest, I have been hopping from one system to other in search of holy grail. I am glad I found this one. I would be the first of your student to join if, at all, you start coaching. Thank you for sharing Sir.

I am using icharts web based charting. It is not that costly and no headaches for maintaining database

Pushpa

Thanks

Remember you cannot learn swimming by reading a blog. There is no substitute for screen time and live trading practice.

Very true Sir. I agree.

I am actually facing lot of difficulties while pulling the trigger..but just wanted to let you know that I am your follower. If I will be able to achieve 30-40% of your trading success...I would be more than happy.
