21062012

Nifty opened within previous days range. BOF of PDL-BRN-IR Low gave a long signal. I expected it to break the IR High. The breakout of IR High failed . Did not short here as I was long and looking for an exit. BOF of PDL and TST of LOD-DB was an opportunity to go long which gave very good profits. If you remembered the [VWAP strategy](#), you will not prematurely book your profits.

*Trend always starts and ends at range extremes. Love the extremes.*
