19082013

Nifty opened below PDL and fell another 100 points. Did not attempt any trades. All the signals ( BOF of IRL, BPB of IRL , BOF of Range Low, BPB of BRN ) were trades into DPs or strong Flips.

hi

I find your blog very informative. I have good success for BPB type of trades.

I have two queries

1. for the BPB trade when do you take the trade once the entry point candle is completed or when it is being formed?
2. I don't understand what is the exact entry point for BOF. also I find so many BOF's but how to find out the significant one?

Usually I wait for a formation at the DP like a small swing point and enter on its break  
I look for the "SCORE" to decide on a trade
