## Reading: Follow Your Effort

If you really want to know where your destiny lies, look at where you apply your time.

Time is the most valuable asset you don't own. You may or may not realize it yet, but how you use or don't use your time is going to be the best indication of where your future is going to take you .

Let me make this as clear as possible

1. When you work hard at something you become good at it.
2. When you become good at doing something, you will enjoy it more.
3. When you enjoy doing something, there is a very good chance you will become passionate or more passionate about it
4. When you are good at something, passionate and work even harder to excel and be the best at it, good things happen.

*Don't follow your passions, follow your effort. It will lead you to your passions and to success,*
