

There is a substantial risk of loss associated with trading Derivatives . Losses can and will occur. My methods will not ensure profits

Nifty opened within previous day range. IR formed and price traded within this range for four hours . Finally a breakout. Went long on the BPB of range high.even though FTA (PDH/PDC) was too close. Market gave another opportunity to go long on the break of the swing high above PDH. Cool 50 point trade. Anybody paid attention to WWAP today?
