

There is a substantial risk of loss associated with trading Derivatives . Losses can and will occur. My methods will not ensure profits

08052013

Nifty gaped above PDH. Initial move was down. Traded within IR for a while and broke down. First trade was BPB of PDH/IRL.. Covered when the push below the tight trading range refused to move.Long on BOF of LOD. TP around HOD. I suspected a barbed wire around PDH. Went short on BOF of HOD/DO/IRH.. I was so confident in this trade. But Market humbled me.

Nice ST. Short entered late as PDC was still to be broken. It was a loss. BOF was good. The first short IR Low/ PDC all were there, dont you wait for a clear break and BPB?

Thanks.

Reply

you got the date wrong :D

Cheers!
